

PRINCE RAJPUT

Aspiring Software Developer | B.Tech CSE Student
+91 8791798004 | princerajput4537@gmail.com | github.com/Prince-mnpp

CAREER OBJECTIVE

Proactive Computer Science student with a strong foundation in **Data Structures & Algorithms** and hands-on experience in **MERN stack development**. Solved **185+ problems** on LeetCode. Seeking an internship opportunity to apply technical skills in building scalable web applications.

TECHNICAL SKILLS

Languages:	C++, JavaScript, Python
Frontend:	React.js, HTML5, CSS3, Tailwind CSS, React Router
Backend & Database:	Node.js, Express, Supabase, MongoDB
Tools:	Git, GitHub, VS Code

KEY PROJECTS

AI-Powered Resume Builder

React.js, Tailwind CSS, Supabase, AI API

- Developed a full-stack platform for generating professional resumes with real-time AI assistance.
- Integrated real-time preview and customizable sections using dynamic React components.
- Managed persistent user data and authentication flows via Supabase integration.

Disaster Shield

React.js, Tailwind CSS, Supabase, React Router

- Engineered a responsive dashboard providing disaster alerts and safety guidelines.
- Designed user-friendly interfaces for emergency resource tracking and community safety updates.
- Optimized navigation and routing for seamless user experience across alert categories.

Notification UI System

React.js, Lucide-react, State Management

- Built a modular notification component supporting success, error, and info states.
- Optimized for reusability across complex web applications using modern UI libraries.
- Implemented clean state handling for smooth entry/exit animations.

CORE COMPETENCIES

- Data Structures & Algorithms:** Advanced proficiency in binary trees, horizontal distance mapping (Top View algorithms), and multi-level traversal techniques.
- Full-Stack Web Architecture:** Hands-on experience building stateful, responsive web applications utilizing the MERN stack.
- Asynchronous Programming:** Proficient in managing complex UI architectures and integrating RESTful APIs (Axios/Fetch).
- Version Control:** Strong foundation in agile development practices, managing repositories and resolving conflicts using Git.

EDUCATION

B.Tech in Computer Science & Engineering
Sanskriti University | Expected Graduation: 2028

CGPA: 9.25
SGPA: 9.50

ACHIEVEMENTS

- Solved **185+ LeetCode problems** focusing on algorithmic efficiency.
- Active competitor in competitive programming platforms and hackathons.
- Full-stack application deployment enthusiast with a focus on modern UI/UX.
